

Relax & Distract Lite

Put on. Play. Relax & Distract.

Relax & Distract Lite makes immersive distraction as simple as possible. No tablet. No setup steps. Put on the headset and the experience begins immediately.

1. Turn on the VR headset and open Relax & Distract Lite.

3. Your default experience plays immediately.

2. QuickStart Mode launches automatically. No menus, no configuration.

First time using Lite? Mushroom Forest is pre-selected as your QuickStart experience.

Continuous Play

Experiences loop automatically throughout the procedure. When one ends, the next begins. No interruptions. No restarts needed.

Personalise Your QuickStart

Found something that works well for your patients? Set any experience as your default in three steps: open the experience, go to its detail screen, switch QuickStart on. It will now launch automatically every time.

Ready to Unlock More?

Lite gives you:

- Instant launch.
- Automatic looping.
- Simple navigation.

Plus gives you:

- Treatment Manager tablet control.
- Admin mode.
- Mixed Reality.
